WE DON'T WANT YOU TO BUY

From us unless we can give you greater satisfaction than you can find elsewhere. We believe we can give you this, and if we can, you ought to know it for the sake of your interests. We want you to see what we can do. You have often heard about the "best goods for the least money." It's an old story and many, and many a time what has proved to be a rousing big story. We could tell you something about it, but we much prefer that you let us show you into the mystery—that is, the mystery of selling the best goods for the least money. We can't show you unless you will come to see us. All we ask is a call, and then if we do not show you something that is irresistible to your eye and your purse, we don't expect you to buy.

THE SPRING OVERCOAT BUSINESS NEEDS A STARTER.

We are making the start, first by having laid in a stock of overcoats from which a selection may be made to suit anybody's taste and pocket. Absolutely faultless garments! Superb silk lined! made! English box and all other stylish shapes! You've been thinking of buying one. Then the weather got hot and you thought you wouldn't. Then the chilly days came again, and you again thought of buying. We tell you the winter was mild. The spring is bound to be cool. You must have that coat. That question is settled. Where to buy is the next question. We don't ask you to buy of us before going elsewhere, but we invite you to come to us before you buy. You never know what's in a hole till you look in it. You can't tell what's in a store before you go there. Then come to us before making purchases in the clothing or furnishing line.

WE KNOW THAT A HAT IS ESSENTIAL TO A GENTLEMAN'S OUTFIT.

The Scripture says that a woman must wear her hair long, and that it shall be a crown of glory unto her. A man wears his hair short, and in this free American republic the only crown of glory he can have is a handsome hat. You may say what you like, but a man is just about as particular and as squeamish about his hat as a woman is about a bonnet. Did you ever see a man buying a hat? As a rule he will try on every one he can find in a store before he makes his selection and then he does not know whether he is suited or not. Well, we have set to work to break up that rule. We have a stock of hats from which a selection may be made quickly and with perfect satisfaction. We are particular to keep nothing but the proper styles and shapes, and when a man selects from our stock, he is just bound to be right. We have soft hats, stiff hats, knock-about hats of all blocks, shades and colors. We can supply a free-born American citizen with as handsome and grand a "crown of glory" as he can get on this earth. Look at our stock.

WE DON'T FORGET THAT NICE UNDERWEAR IS DEMANDED BY GENTLEMEN.

Now we come to a department of which we are particularly proud, and on which we specially congratulate ourselves. We cannot hope to convey, in words, anything like an adequate idea of our stock of gentleman's underwear. We surprised ourselves in procuring it, and every day we feel increasing gratification at the success we have in fitting out and delighting our customers in this line. We are supplying anything from plain merino to fine silken suits, and the variety of color and make is as great as our variety of goods in this department. Come and see! And then, and not till then, can you understand why we are so proud of our stock.

THE "G. G." SHIRT.

The mere mention of this garment is sufficient to commend it to those who have worn it once. It has proven to possess every quality and every feature demanded in a dress shirt, and that is as much as anything on earth can do. We have them in all sizes and styles of bosoms, and we challenge the country to produce a garment that will prove more satisfactory. Come and see it. The "G. G."

AND NOW, we have told you but little, in fact nothing compared with what might be told. We have suits of every quality and style and size, from \$6.00 up to any price that a suit of clothes can bring—everything worth all the money asked for it. We have children's suits from \$1.50 up, and we can make any child or boy, as well as his mother, proud of the outfit we furnish him. We have everything necessary to complete a gentleman's wardrobe, and we can provide a very handsome one for an unhandsome sum of money. We don't want you to believe these things if it will trouble you; but when you go to buy, we ask you for your own sake to drop in and see us before making your purchases. And, we are yours to serve.
